

It has been brought to my attention that the FCC may allow new LPFM stations to take priority over current FM translator service. In my community, this would probably result in more stations playing music, commercials and/or DJ talk. Since that is inappropriate for my children, we currently listen to K-Love on a regular basis. Currently, we are just inside their station's range and would lose their positive message if you take this action. I urge you to not let this happen.
